

## Farmington Girls Basketball

Welcome to Farmington Girls Basketball! By now you have likely experienced the game at a middle school level and we would like to invite you to work with us this summer to help transition yourself to the high school game. There is a big step up in how the game is played from the middle school to high school ranks, even for those who have played AAU or club ball.

This summer we will be going to two basketball camps. The first is intended for any athlete looking to gain high school experience. It is at Oakland University. We will be practicing for this camp starting in June. The second camp will be for varsity basketball candidates. It is an overnight camp at Grand Valley State University. Practices for both camps are open to anyone who has plans to play in our program next season even if they are not attending the camp.

In addition to our camps, we will be hosting a skills clinic in June. The clinic is for girls in grades 5–8. It is a great opportunity to get a basketball in your hands, shake of some rust and meet some of our coaching staff. Proceeds from the clinic go directly back to the girls in the program.

If you or a parent has any questions about the camps, practices, or clinics, please feel free to e-mail Coach Browne at [david.browne@hvs.org](mailto:david.browne@hvs.org).

Our basketball program focuses on fundamentals and our coaches teach players the right way to approach the game both mentally and physically so that they can become the best basketball player they can be as well as the best teammate they can be. We look forward to seeing you in the gym this summer and fall!

Go Falcons!
